Customer Reviews

Cheaper than I could find locally and shipped for free. This is the series my daughter's school uses and it seems to be working well. She is learning and progressing quickly.

This book was a great succession to the first one. The exercises got progressively harder making them great for practice.

This Book is great, it has all the right pages and hand positioning pages are very helpful. I give this product a 5 star review because it has everything it has in the description, nothing is wrong. - :)
