Customer Reviews

I purchased this for myself but my daughter (college aged) usurped it. The pages are black in the background and using neon gel pens really makes the pictures pop. This is quite popular among the college aged crowd and probably a good safe stress reliever (better than drinking). I would recommend adding these types of products along w/gel pens or neon pencils in care packages for college kids around exam times.

One of the better swear word coloring books I've seen. The black backgrounds look great and I used highlighters to make the colors stand out. It really does work! Also trying colored pencils that do the trick as well. I recommend picking this one up.

Sharpies and markers go very, very dark and don't even look like their actual colors on this paper. You will probably want to only use colored pencils on this book.

This is a great gift but not for those who may be easily offended. Definitely adult content.
