Although I titled this the "Best Joe Pass Book" I actually think it's one of two of the best Joe Pass book's I've ever come across. The other is the Joe Pass Collection book. The transcriptions in here are very accurate and you can't get better than this for a solo jazz guitar arrangement. They are very challenging pieces to play and are really rewarding and beneficial to those who take the time to get them down. You can be an advanced jazz guitarist and these transcriptions will still take some time. All the tunes in this book are based on the four Virtuoso albums Joe made: Virtuoso, Virtuoso #2 and Virtuoso No. 4. No transcriptions are present from Virtuoso #3, although Roland Leone has published a book that has all the transcriptions to Virtuoso #3. The one exception is "In Your Own Sweet Way" which comes from the album "Chops". If you want to get really picky you can find some errors in the transcriptions: some chords that are supposed to be strummed or arpeggiated aren't notated at times and sometimes a note is added that Joe didn't play but nonetheless fit the chord (for instance, Roland includes the 3rd of a C9 chord when Joe just played the root, b7 and 9th). I tested these transcriptions by listening to the recordings with the Amazing Slow Downer to get each note correct and those are the few minor mistakes I've come across. Note that these mistakes are very minor and I still say the transcriptions are extremely accurate. Joe Pass is my biggest musical

influence and I've taken the time to learn several transcriptions from him from the two books I mentioned earlier as well as even transcribe a lot of his stuff myself. That being said, learning transcriptions from this book is very rewarding and well worth the effort.
