This book has been on my tbr list for months and I finally broke down. This book is beautifully written, well structured, and well developed. Talon is a marine veteran with secrets and damage going back to way before his time in Iraq. His sister Marj and his brothers are determined to get him help, but his help came in the form of Marj's best friend Jade. Without giving too much away, simply put this book is a must read and I am truly looking forward to book 2! It ends with a huge cliffhanger!

I was hooked from the first page. My emotions are all over the place with the story of Talon and Jade. Captivating storyline, relatable characters, and a flowing storyline all come together for another 5 star read. Helen is quickly turning into my go to romance author, I have read all of her

work and she has yet to let me down. I'm so glad to have found my next series, I cannot wait for the next installment!

This was my first read from Helen Hardt. let me tell you, I am now a fan for life. The relationship between Talon and Jade is HOT and the underlying back story is full of suspense. I cannot wait to learn more about what happened to Talon and the mystery that the Steel family is involved in. I am so excited for the next book in this series as I need more Talon and Jade and I need to find out where this storyline is going!!!You have a fan for life, Helen!

Soft pornography? Yes maybe, BUT, I loved it! This a story well written about a troubled young man fighting the demons of a very troubled past and the woman who's love can possibly save him. I can't wait for the next installment.

This is an emotional roller coaster all the way through. This is an epic love story about two broken souls. I read this book in two days. I got this as an arc to read and review honestly. I could not put this book down. I can not wait until the next book of this emotional love story. The two main characters are Jade and Talon. Jade was left at the alter on her wedding day. In order to start a new beginning to her life she moves in with her best friend at the Steele ranch. Jade grew up with all the brothers except one Talon. They felt the chemistry between them as soon as they met at the airport. Talon served the military and it still haunts him. Later we find out that he has a childhood trauma that he relives every night. His escape is to be the best on the bedroom. He knows he has strong feelings for Jade but he doesn't know if it is love or lust. Will they break down each others walls and find the love that they both want? I sure hope so. We will find out soon.

I loved this book and will be getting more from this author! And cant wait to find out what happens to the characters in this book! I seriously could not put this one down and read it in one day. my eyes are worn out but it was worth it. This story is deep and really touches a cord. and I have to say that the sex scenes arent bad either. If youre looking for something with depth and semi dark entertainment look no further!

This book is one that is hard to put down. I found myself so drawn into it . I knew I would need to finish it quickly and that i did. I'm looking forward to the next book Obsession . .I find this book daring, teasing and very erotic. I enjoyed it immensely.... Thank you Helen for such a great read !

This series is one of my favorites already. I read this book in about a day I was glued to it the moment I started reading it. The tale between Jade and Talon is a roller coaster of emotions, trouble pasts, and finding love. The ending leaves you with a jaw dropping cliffhanger. Will Jade and Talon let one another fall in love with each other? Helen Hardt has simply out done herself yet again with the series.
