Customer Reviews

I love the coloring craze! So relaxing and brings you back to being a kid again. When I received this coloring book I was immediately impressed with how sturdy the book is. It's heavy and solid. Not a flimsy book like so many other coloring books. Each page is perforated so that you can take the

page out to reduce bleeding on the other pages if using markers or to take the page out to give as a gift or just hang up. The back of each page is black. I like that because sometimes you color a picture and there is another awesome picture on the other side you want to color. Then you must choose which one to show off. With the black on the back of each page there is no worry about having to choose a side. The drawings are very nicely done. I feel like it gives you the perfect balance. Not too hard, not too easy. Overall, I'm very happy with my purchase. I would highly recommend this to anyone that loves to color and is looking for a high quality coloring book. I received this item at a discount and/or free for my honest, unbiased review. I rely heavily on reviews when making a purchase. For that reason, I try to give the best review possible to help others with their purchase. If you found this review to be helpful, please, click the button below. Thank you!

I am an artist who uses Adult Coloring as an extension of art. I was given the opportunity to review this beautiful coloring book called Animal Mandala Designs Vol. 2 in PDF format. This book isn't really a Mandala book but does fall under the category of Zentangle, which is of my favorite styles of coloring pages. A Zentangle is a form of art that uses intricate small patterns to form a larger piece of art. Traditionally Zentangles have been a specific sized piece of art that is generally square, however, in recent years Zentangle styles of art have been incorporated into larger absolute images like animals as illustrated in this book. Many of the images do contain Mandala's within the design or image. This Adult Coloring Book is very nice. It includes 50 individual designs. Some of the designs include the following: wolves, birds, deer, bugs, kangaroo, bull, llama, lions, dogs, dolphins, fish, cats, squirrels and many other animals. The images are very sharp and crisp and do print well. These are high quality black and white images. Images are best printed on card stock and can be colored using any artist supplies such as pencils, crayons, pens and more. I really recommend this book to those who enjoy Adult Coloring in the style of both mandalas and zentangle. I received this product at a discount or in exchange for an honest review. I take my reviews very seriously and only review products I or my family can use and test them well before giving my review or feedback. The amount I paid has no bearing on my review. If you feel my review was helpful please take a moment and click "Yes", it helps me to continue to review great products and share my experiences with other customers.

Love this coloring book! A couple of my friends have been using coloring books as a way to relax and create beautiful artwork. I've saw this coloring book and thought the pictures looked beautiful. I wasn't disappointed. The are gorgeous pictures of animals and I can't wait to begin my coloring

journey. I just had surgery on my right wrist so I haven't begun coloring, but I am eager to begin. The patterns used in these stunning animals are intricate and so beautifully thought out. I think artist Jade Summer did a wonderful job of sharing her art with others. Each picture has a black page backing to prevent bleed through, so you can use pencils, markers, gel pens, etc. and not worry. There are fifty pictures to let loose and color- each one different yet they all blend with the same mandala animal theme. If you're into coloring, I think you'll enjoy this book. If you're just starting out, or revisiting coloring like I am, I also think you'll love this book. I am excited about sitting down, stilling myself, getting away from the computer for a while and simply coloring. To me, it's like a form of meditation, and in with a busy life, crazy world, you name it, I think this is going to be one of those things I do that really calms and centers me. The pages are nice and this- this is a quality coloring book, great for yourself or as a gift. I'm thinking of buying some as Christmas gifts for my sisters and nieces. I hope you found this review helpful. I purchased this at a discount in exchange for my fair and honest review. I've also included some pictures. I wish I could have shown you some with my coloring in it, but my right hand is still bandaged up from the surgery. Adult Coloring Books: Animal Mandala Designs and Stress Relieving Patterns for Anger Release, Adult Relaxation, and Zen (Mandala Animals) (Volume 2)

This is a very high quality coloring book. The pages are thicker than most newspaperly kids coloring books and I love that each page is one sided and the back side it all black. The pencil marks don't dig through to the next page either. The designs are super beautiful and intricate. Some repeat throughout. Keep this in mind in case you are expecting 50 images. It's 50 pages with about 35-40 different images. One thing I failed to realize was my lack of proper coloring utensils. Try to get some good quality, smooth pencils or your hand will hurt immediately with all these tiny details. I have just ordered the Marco Renoir pencils as they seem to have prismacolor quality without the price tag (based on reviews). I hope you found this review helpful and if so, I'd love to know! I like to write reviews because reading them is so important me when purchasing a product. I'm fortunate enough that I had the opportunity to try buy this coloring book at a discount (not free) in exchange for my honest and unbiased opinion. I always give my true thoughts and am under no obligation to do otherwise. If you found this review helpful, please let me know by hitting that yes below! I really want to know that I'm bringing you my best and helping you make a great, knowledgeable purchase decisions! Thanks!
