Customer Reviews

This is a museum quality book. Filled with richly illustrated pop-ups What you don't realize by looking at the book on , is that every page has a big pop-up in the middle and then 2-4 EXTRA

pop-ups (fold-outs) on the corners of each spread. It was all my daughter could play with for hours! And even the moms in my gaggle of mom pals love it! Definitely worth every penny and makes a fantastic gift. I wish there were 6 stars :--)

Beautiful book! Extremely impressed with the quality and the clever designs of the the pop up artistry. The main pop up arts in the center are incredible and most have very intricate pull tabs that work like magic! At the blink of an eye, Cinderella is transformed by fairy godmother's magic. Each page contains smaller pop up arts of various Disney princesses and characters. Adults and kids are equally fascinated by this book.

Wow! Matthew Reinhart out did himself this time! Beautiful complicated pop-ups just bursting in this book. If you are a collector of Matthew Reinhart's work - you'll have to add this one to your collection. This one is not really for young children to handle but they would be in awe having someone show it to them. What an amazing skill!

This is a beautiful book. The pop-ups are so wonderful and detailed that some of the pages are hard to close. My 3-year-old granddaughter can't look at it by herself or she will rip it trying to close it.

Beautiful book but fragile. I expected that it would be but some of the pull tabs ripped within the first couple of uses by my daughter (she's 5) even though she was being very careful. She does love the book though and a bit of tape here and there fixed it right up. The book has some truly amazing pop outs...a real collectors item. But not really for smaller kids.

Beautiful book! My kids love this thing, though it's probably not a book that you want to let your kids

play with. we read it together so that they don't accidentally tear the cutouts. It's a beautiful book, the only knock on it is that some of the pop up portions are so large, some care needs to be taken opening and closing the pages or the book may be damaged. great to read with kids, but again probably not a book that a kid would be able to read alone.

Super adorable! Definitely, do not let little kids play with it because it will rip. I almost ripped a page because it wasn't folding properly. That the only reason I am giving it a four instead of a five. My daughters and nieces love this book!
